SUMMARY

I have been gathering hands-on experiences with different web technologies and various aspects of software development best practices. I am a passionate and self-driven developer with a passion to develop my skills in new technologies and intended to utilize my expertise in my work.

SKILLS

Programming and Markup Languages: JavaScript, HTML, CSS, Python.

Libraries, Frameworks, and Technologies: React.js, Redux, Redux toolkit, Express.js, Node.js, MongoDB, REST API, Styled Components, JSON-server, React-Bootstrap, React-Material UI, ESLint, JWT, SCSS, EJs, NPM.

Testing Libraries: React Testing Library, SuperTest, and Jest

Tools & Hosting: Git, GitHub, Linux, Netlify, Render, Postman, Vscode

PERSONAL PROJECTS:

Steadfast Communications (Recruiting Agency):

[Live Site](#) | [Client-side Code](#) | [Server-Side Code](#)

- A full stack responsive web app of professional services built for where I presently work. Built with MERN stack, JWT authorization for admin panel. Built admin dashboard with CRUD operations to create, edit, and delete job posts using React quill editor, used React-query for server-side state fetching and caching
- Created RESTful API using Express.js, Node.js, MongoDB Mongoose to create model schemas, and MVC structure at the backend with validation and error handling middleware.
- Using Redux for the client-side state. Reusable React component and react-styled components for styling and React Context API for dark mode, Redux persist for persistency.

Story-Blogs:

[Live Site](#) | [Client & Server-Side](#)

- A responsive blog website where users can create, delete and edit private/public posts changing status using CK editor.
- Used HTML, CSS, JavaScript, and EJs (template engine) at the frontend with Google OAuth to log in to their account. Express.js, MongoDB RESTful API, and MVC structure at the backend, CRUD operations.

My Portfolio:

[Live Site](#) | [Code Link](#)

- Responsive single-page React web app where you can get all the information and projects that I've built.
- Used reusable React styled-component and React Context API for Dark mode.

Finished 400+ Coding challenges in [Codewars](#)

EDUCATION & CERTIFICATION

International Islamic University Chittagong

[2017 – 2022]

Chittagong, Bangladesh

- BSc. In Computer Science and Engineering

University of Helsinki

- Full Stack Open [\[Certificate Link\]](#)

WORK EXPERIENCE

Executive Technical Recruiter (Remote)

[Oct 2022 – Present]

Steadfast International Services, LLC, New York, NY

- Worked in USA Market and effectively created and maintained a high-volume pipeline of U.S. candidates for numerous clients. Communicate, research, networking, strategies, and recruited U.S. candidates by daily making 50+ cold calls, emailing 100+ candidates, and posting jobs (e.g. LinkedIn, Monster, Dice, Indeed, and internal database, etc.)
